THE PROBLEM WE SOLVE

**85% of enterprise AI projects fail.** Not because models don't work—because implementations collapse under production load. Morgan Stanley queries take 5 minutes. AWS burns \$1M on inefficient monitoring. SAP integrations bottleneck at 30% higher latency.

**The issue isn't technology. It's execution at scale. We've proven it at AWS, Morgan Stanley, Rocket Mortgage, SAP, and o9 Solutions.**

- **Shipped, Not Hypothetical: 100+ production integrations, 20+ global implementations**
- **Technical + Business DNA: Founded profitable companies, consulted Fortune 500s**
- **Full-Stack Execution: Cloud → AI → Product → Delivery. Zero handoffs.**

DETAILED ACHIEVEMENTS - QUANTIFIED IMPACT

COST OPTIMIZATION & EFFICIENCY

- **\$1M/year** AWS cost savings via eBPF monitoring optimization
- **\$250K** revenue recovery insights from external data integration
- **35%** faster data ingestion at Rocket Mortgage (multi-TB datasets)
- **40%** deployment efficiency improvement (20+ CI/CD migrations)
- **30%** latency reduction across 30+ SAP cloud connections
- **70%** batch-run time reduction across 20+ global implementations

SCALE & PERFORMANCE

- **75M records/min** Kafka at Morgan Stanley
- **5min → 45sec** query time (83% reduction) with Mimir integration
- **100+ GB** real-time ERP/CRM data pipelines to ML microservices
- **10,000+** business documents daily through hybrid cloud connections
- **48h → minutes** workflow cycle time reduction via AI orchestration

PRODUCTION DEPLOYMENTS

- **100+** SAP S/4HANA integrations for 15+ Fortune 500 clients
- **20+** global supply chain implementations
- **6 products** shipped in 26 months at AaMaRa (profitable Day 0)
- **Multi-tenant SaaS** for Dubai Islamic Bank (beat Zoho)
- **1,200-employee** factory ERP digitization (25% efficiency gain)

LEADERSHIP & RECOGNITION

- **15 developers** led across 6 projects at AaMaRa Technologies
- **1,500 team** represented as SAP Early Talent Ambassador (\$60K budget)
- **IEEE Best Paper Award** for deep learning research (published)
- **500+ certified** professionals from o9 Solutions course content
- **Early promotion** to SDE 2 at Morgan Stanley + tech-excellence award

IDEAL ENGAGEMENT PROFILE

COMPANY TYPE

- YC-backed startups (Seed-Series B)
- VC-funded AI/SaaS companies
- Fortune 500 innovation teams
- Enterprise product companies

PROJECT SCOPE

- Multi-agent AI systems at scale
- Cloud infrastructure optimization
- Enterprise ERP/CRM integrations
- Data pipeline architecture (TB+)
- Product strategy & GTM execution

OUR VALUE

- Ship to production (not just PoCs)
- Technical + business execution
- Founded/scaled companies before
- Fortune 500 battle-tested
- Available June 2026 full-time
